

Sean Crittendon

One of our newest members to our board is Sean Crittendon! He has been a board member for 3 years. He is the Boys and Girls Club director and has lived in Atchison his entire life. He graduated from AHS in 1996! Sean serves on multiple committees in the district and the community. His biggest accomplishments while serving on the board has been help continue the partnership with Highland Community College Technical Center in Atchison and to continue increasing the amount of clubs AHS has to offer students. One area Sean would like to see the board continue to focus on is the commitment to build successful futures for all of our students! Thank you Sean for your continued commitment the 409 school district!
